

EXECUTION MILESTONES & INVESTMENT SCHEDULE

MILESTONE	TECHNICAL SCOPE & ARCHITECTURAL DELIVERABLES	TIMELINE	RATE	INVESTMENT
Phase 0: Live	Interactive Architecture Prototype & Operational Cockpit: Deployed live demo with 5-pillar advisory questionnaire, live score computation engine, R/Y/G pills, 8.5x11 live preview, and zero-PII client-side state.	Completed	\$0.00	\$0.00 (Ready Now)
PHASE 1: DELIVERY	Core Production Web App, Decoupled Rules & Windows PDF Engine: Integration of firm branding, logo & color tokens, decoupled JSON scoring schema (`scorecard-config.ts`), vector-accurate CSS `@page` Letter portrait print engine, required-field validation, reset functionality, and complete Git source code ownership transfer.	3–4 Days	\$30.00/hr	\$300.00
PHASE 2: POST-LAUNCH	30-Day Hypercare Warranty & Windows PC Print Quality Assurance: Cross-browser testing on Windows PCs (Edge, Chrome, Firefox), testing across 100%, 125%, 150% display scaling, and minor wording or scoring rule tweaks.	30 Days	Included	\$0.00 (Warranty)
TOTAL FIXED INVESTMENT (Phase 0 Live + Phase 1 Delivery + 30-Day Hypercare)		3–4 Days	Fixed	\$300.00 USD

ARCHITECTURE & PRINT CONSISTENCY GUARDRAILS

- Single-Page 8.5x11 Guarantee:** Pure CSS `@page { size: letter portrait; margin: 8mm 10mm; }` with automatic `@media print` element suppression, eliminating 2-page spillovers on Windows PCs.
- Standalone Offline HTML Export:** 1-click bundled offline export allowing advisors to save and print scorecards on enterprise computers with restricted PDF print drivers.
- Zero-PII Storage Policy:** In-memory React state lifecycle ensures zero prospect financial data is persisted to disks, databases, or cookies during initial discovery.
- Decoupled Scoring Engine:** Category weights, question options, and R/Y/G cutoffs (Green ≥ 75%, Yellow ≥ 50%) isolated in clean JSON configuration files.

FUTURE DEVELOPER & OPERATIONAL EXTENSIBILITY

- Non-Technical Configurator:** Intuitive Schema Inspector modal (`/api/export-schema`) enabling future staff to modify questions and scoring weights without code rewrites.
- Real AI Executive Synthesizer:** Optional dual-provider narrative copilot (OpenAI `gpt-4o-mini` + Gemini `2.0-flash` with deterministic `CFP-RuleEngine-v1` offline lock).
- Turnkey Setup Documentation:** Complete `README.md` with 1-step Vercel deployment button, local setup instructions (`npm run dev`), and Windows print checklist.
- 100% Intellectual Property Transfer:** Full source code, Git commit history, and asset ownership transferred with zero vendor lock-in.

ESCROW PROTECTION

100% funded via Upwork Escrow milestone; released solely upon final acceptance and Windows print verification.

FULL IP OWNERSHIP

100% copyright, source code, and design assets transferred immediately upon delivery. No licensing or recurring fees.

30-DAY HYPERCARE SLA

Dedicated bug-fixing warranty covering any edge-case browser or layout adjustments across advisor workstations.

QUOTE VALIDITY

Terms and \$300 fixed fee guaranteed for 30 days from issuance. Turnaround 3 to 4 business days upon start.
